Entries for the AMT are made through the Ralliesinfo software system. A few key things to note for those who are not familiar with the system or for those who may need a refresher. Once you have made your entry you will be sent a system generated email as below.

It is vital you keep this email as it is your way back into the system. By clicking on the "Access Your Entry Home Page" box highlighted in Blue you are taken to your entry and you can make any amendments to your entry details or sign on.

When you initially completed the entry form it takes you to that Home Page as below.

You will note it is showing two red boxes, which means your entry is not complete. Once the payment is made the "Please make Payment" will turn green.

At the bottom of the Home Page are two areas of note, by clicking on the entry editing you will be able to change anything from the car details to the entrants details, including any areas where you might have initially put a TBC.

The second point is signing on. There is no facility on the day for signing on, it is all done electronically. When you click on the boxes below it will enable you to sign on, but only when all the fields in the entry form are fully completed and payment made. The second red box at the top of the form will then turn to green.

Signing-On

Before you compete on the event, you will need to sign-on. This is done electronically here. Each crew member, plus any entrants or parents of minors must download the relevant Competitor's Signing-on Form, which will be pre-filled with the information provided on the Entry Form. Once you are happy that the information provided is correct and complete, you must click the appropriate box below, which will electronically 'sign' the form. You can download and keep a copy of the form once signed if you want to, though it will remain accessible here.
